

BOONE COUNTY LIBRARY STAFF - HONOR BOOKS

Studio Photographs Courtesy of Newell's Photos

Friends of the Library honors the hard work and dedication of our 2009 library staff by having each of them select a book of their choice for the library collection. Following are this year's staff picks.

Susie Miller

Dogtown: New Beginnings
(DVD - 2008)

As an animal lover and owner of three Boxers, I feel this DVD would be an excellent addition to our video collection. It is National Geographic's collection of 5 programs detailing the "Best Friends Animal Sanctuary - the country's largest no-kill animal facility.

America's Most Wanted Recipes: Delicious Recipes from your Family's Favorite Restaurants

by Ron Douglas

I chose this book because I love food and I love to cook. I think it would be awesome to make the same meals that I eat, while at my favorite restaurant, in my own oven!

Martha Stewart's Encyclopedia of Crafts

by Martha Stewart

I have chosen *Martha Stewart's Encyclopedia of Crafts* because I enjoy all types of crafting and incorporating those items that I have made into my home décor. I think Martha Stewart is the queen bee of all things home.

The Baby Signing Book

by Sara Bingham

The reason I chose *The Baby Signing Book* is because it is my belief that babies can communicate with their peers by using sign language. It's just like anything else, all the child needs is a willing teacher. We have several patrons that have taught their children signing. I feel that any second language, whether it is Spanish, Latin or Signing will be a benefit to their future.

Doodle Stitching: Fresh & Fun Embroidery for Beginners

by Aimee Ray

I chose *Doodle Stitching* because I wanted to expand beyond the tea towel realm. Through the inspiration of this book I have embroidered a litter of kittens on my youngest daughter's school backpack. She decided the color of each cat's fur, eyes and any accessories. We have had a lot of fun with the inspiration sparked from this book.

Advanced Aviation Modelling, Vol. 2

By Jerry Scutts (Editor)

This book is my choice because of all the fond memories I have had. I find model building to be very relaxing and even therapeutic to one's health as it teaches patience and the virtue of taking pride in one's efforts. Others, I think, will be able to appreciate all the little things that expert model builders go through to insure the top most quality in their works.
