

To Our Day Care Readers

We would like to devote a few words of appreciation to the wonderful volunteers who participated in our Daycare Reading program this past year. It takes a very special person to sit on one of those tiny little chairs, read with all the inflection of an Emmy award winner, answer questions off the cuff that would leave most people speechless, and sometimes try to hear your own voice over the high pitched squeals of laughter and excitement. It's not for everyone. But there is no better reward than knowing you helped lay the groundwork for making our youngest generation love reading. You are an investment in the future. We salute you.
